2. I would appreciate any action you could take to have [REDACTED] summons delayed until after 15 May 1956 as he is the only engineer I have available to maintain the existing [REDACTED] telephone systems and to make new installations. It will take approximately six weeks to train another engineer to assist him in these duties.

3. I presently have [REDACTED] working with [REDACTED] but he is scheduled for training at Andrews Air Force Base in preparation for his assignment to [REDACTED] I would prefer not to alter [REDACTED] training program as this, in turn, would delay his departure for overseas.
